WORK EXPERIENCE

- Teachers' Teachers' assistant at Sylvan Learning Center. Managed educational materials
Assistant for the teachers, administrative work for the directors, and mentored special needs
students at the facility.
- Math tutor Tutored peers in math through high school independently and through school
programs.
- Neutrogena Did market research and participated in product trials.
Teen Panel
- Outlaw Market research project for Outlaw Counseling, a company located in San
Counseling Francisco and under contract to Levi-Strauss. I was hired to research, with
photos, interviews, and personal observations, current trends in surfer-skater
fashion for the South Bay, Los Angeles. I produced a report that was well
received by the company, and enjoyed the experience of being paid for interesting
work.

Admin. Assistant Did independent work as administrative assistant for various individuals throughout high school. Paid duties included mail management, filing, record keeping, and other paperwork control functions, as well as more complex tasks such as bank account reconciliation using computer software, and tax record preparations. One project was to archive ten years of accounts payable expenditures into a chronological and subject based data grid for the purpose of creating a viable record for offsetting potential capital gains taxes.

EXTRACURRICULAR ACTIVITIES

Supercamp I attended this motivational camp designed by the Learning Forum for three summers, and was able to participate on the Leadership Team, and then the Leadership Forum, for my last session there. Next summer I plan to be a camp counselor at one of the many Supercamp locations. Their program incorporates what are known as the 8 Keys of Excellence, and the most important one to me is the carpe diem of "This is It." Other keys stressed in the program are: commitment, speak with good purpose, balance, failure leads to success, integrity, and ownership.

Travel I love travel and have been lucky to be able to visit a third of our United States and two other continents so far. My interest in the world was heightened by my participation in the Model United Nations program for four years, which involved intense study of foreign and exotic lands and cultures. I view travel as an essential way to expose myself to different ways of life and understand varying points of view.
