Guidelines for Nominators

Criteria on the previous page are exactly what JBead Foundation Awards selection committees use to evaluate nominees. As such, tailoring your nomination to highlight the criteria will make it easier for committees to understand how your nominee's achievements meet the criteria.

Nomination Requirements:

- Be sure to review the award criteria that you feel explains how your nominee fulfills those criteria. Be sure to use the correct nomination form for each award. Do not alter or change the form(s) in any way. Complete the form in full, and submit attachments that support criteria areas. If submitting your nominee for more than one award, please submit a separate completed form and set of attachments for each award.
- ATTACHMENTS ARE LIMITED TO 10 PAGES PER NOMINATION, SINGLE-SIDED (11 pages total including nomination form). Include background materials (e.g. curriculum vitae, letters of recommendation, etc.) or other attachments only if they help to highlight one or more listed criteria. Include materials to give a complete picture of your nominee's accomplishments, but keep the nomination as concise as possible.
- Submit all materials on white, 8 1/2 x 11, copy weight paper, single sided. Submit copies, not originals of articles, programs, etc. All materials submitted will be reproduced in black and white only for distribution to selection committees.
- Because letters of nomination and support are an integral part of a successful candidate dossier, please make sure that you review the criteria for a specific award before writing your letter or soliciting other letters of support for your candidate. You can either provide the supporting letters with your nomination or make certain that the supporters send their letters directly to the Annual Recognition Awards Committee by the deadline date of August 31, 2005.

Support Letters:

The quality of information contained in the nomination and **support letters** is given particular attention by the committee. Letters that comment on the individual's specific achievements are the most important and helpful. Nominators and supporters should answer the following general questions in addition to the ones specified for each award category: (1) what is your relationship to the candidate and

how have you gained knowledge of his/her accomplishments? (2) How has the individual maintained a connection with the community, business, college/university, faculty, staff and/or students? Please be specific. (3) Why is this an appropriate time to recognize these individuals' achievements? Remember to describe and interpret your candidate's accomplishments in terms that a lay reader can understand.

- Supporting materials submitted with nominations will not be returned.

Suggestions for Nominators:

- Format sections of your nomination to coincide with criteria areas. This will help selection committee members know which criterion/a the attachment is meant to highlight. **Be sure to address all criteria.**
- If submitting a nominee for more than one award, it is *suggested* that you submit two different sets of attached materials. As the criteria for each award is different, different points can then be highlighted in each nomination. If submitting your nominee for only one award, choose the award for which his/her achievements most closely match the award criteria.
- Please make your nomination materials attractive and easy to read. Graphics or fancy layouts are not necessary, but remember that selection committees are reading many nominations. We suggest using double line spacing and easy to read fonts (12-point or above).
